FALL 2014

Wireless Speed Upgrades

We have recently completed wireless speed upgrades to many areas in Norfolk County.

We are now offering wireless speeds up to 2.5Mbps.

Call today for more information!
519-428-4650

Tech Tip:

Many of us now have wireless routers and use them daily to connect our computers and mobile devices.

Newer routers have an abundance of settings that can affect performance and security.

Make sure to always use security on your wireless router and proper configuration of the wireless channel, encryption and band ensure the best experience using your wireless.

Our technical staff will be happy to help you optimize your router setup.

Newest Tower Locations:

Corner of McDowell Rd and
Charlotteville West
Quarter Line

Corner of Ireland Rd and
Lynn Valley Rd
